1. Qualitative Information on Settlement of Accounts for the Three Months

(1) Qualitative information on consolidated operating results

During the three months ended June 30, 2016, despite underlying strengths in corporate earnings, the economic environment was marked by an outlook of uncertainty with respect to business sentiment and personal consumption against a backdrop of adverse factors that included slowing overseas economies, an appreciating yen and share price volatility. The Company also continued to face harsh operating circumstances as tight labor market conditions persisted. Operating in this environment, we worked toward achieving the objectives of the Long-Term Management Plan "DAN-TOTSU Management Plan 2019" and the Medium-Term Management Plan "DAN-TOTSU Three-Year Plan STEP." To that end, we focused on creation of a business model for generating substantial added value by building a premium-quality network to enable efficient logistics and fusing together the Group's business resources.

The Delivery Business generated firm revenues amid increasing delivery volume resulting from efforts geared to adding points of service access for the "TA-Q-BIN Compact" and "Nekopos" services, along with steps taken to increase sales to mail-order business operators.

In the non-delivery businesses, we took steps to expand our existing service offerings by enlisting the strengths of Group companies, while also drawing on Group-wide ties as we aggressively promoted solution sales geared toward addressing customers' business challenges.

Our consolidated financial results for the three months ended June 30, 2016 are as follows.

Initiatives for the entire Yamato Group

- a. The Yamato Group has been pursuing its "Value Networking" design, on the basis of creating business models for generating a high level of added value through the combined efforts of our respective businesses, while at the same time contributing to growth strategies and international competitive strengths of the Japanese economy. Meanwhile, we are also taking steps to forge a robust corporate culture that acts as a foundation for business creation and development.
- b. To further promote our "Value Networking" design, we have been crafting business models that deliver a high level of added value by leveraging the Yamato Group's business network. Also, to address varied customer needs in Japan and overseas, we have been making more effective use of our innovative network platform consisting of the "Haneda Chronogate," "Atsugi Gateway" and "Okinawa International Logistics Hub" facilities, in addition to our existing "last mile" network.
- c. We continued to drive initiatives geared toward forging a more robust corporate culture. To that end, we worked on enhancing the efficiency and dependability of operations, in part by improving our transport systems and by using our information technology network to enable visual monitoring of operating volumes. In addition, we redoubled our employee education efforts and focused on building systems for ensuring that we honor promises made to our customers. Moreover, we actively engaged in CSR-related activities linked to Yamato Group business endeavors, such as through environmental and safety measures, and efforts to prosper communities.
- d. In our business looking toward overseas markets, we have been working to forge inter-regional collaboration while strengthening our capabilities in respective geographic regions in order to invigorate our cross-border transportation services involving shipping between five points in Japan, East Asia, Europe and the Americas, with a focus on the ASEAN region. Moreover, we have been building a parcel delivery network that provides high added value, by taking steps to expand our small-lot cold chain services in international logistics.

- e. With the aim of improving customer convenience particularly in the mail order market, we have been working to establish an environment ensures customers greater ease in picking up their parcels. Among our efforts to that end, we have established "Packcity Japan Co., Ltd." as a joint venture that sets up and operates an open-type infrastructure of parcel lockers, in conjunction with a major French manufacturer of postal service-related equipment.
- f. We have been taking aggressive action to reduce costs through efforts that include implementing thorough controls on costs linked to operating volumes and also pursuing measures to improve productivity, amid a deteriorating external cost environment marked by a tightening labor market.

(2) Qualitative information on consolidated financial position

Total assets were 1,098,404 million yen as of June 30, 2016, up 8,967 million yen from the end of the previous fiscal year. The major factor in this was an increase of 15,011 million yen in investment securities. Liabilities increased 11,770 million yen to 557,351 million yen from the end of the previous fiscal year. The increase was largely attributable to a 45,583 million yen increase in accrued expenses upon having recognized scheduled payments of summer bonuses, but was offset by a 17,777 million yen decrease in provision for bonuses and a 14,560 million yen decrease in income taxes payable due to the payment of income taxes. Total net assets were 541.052 million ven, down 2.802 million ven from the end of the previous fiscal year. This was mainly attributable to a decrease in retained earnings of 2,316 million yen due to the recording of profit attributable to owners of parent of 3,661 million yen and payment of dividends of surplus of 5,977 million yen.

Accordingly, the equity ratio changed to 48.7% from the previous fiscal year's 49.4%.

(3) Qualitative information on consolidated earnings forecasts

Looking ahead at the economy, despite expecting a gradual recovery trend, we also anticipate ongoing uncertainties with respect to the economic outlook overseas and a tightening labor market. In this environment, the Yamato Group will continue efforts in the Delivery Business to heighten profitability, largely by continuing to provide highly convenient services and working to maintain and improve quality, while also promoting proposals to solve customer challenges. Moreover, we aim to achieve further market penetration with our "TA-Q-BIN Compact" and "Nekopos" services by forging ahead with efforts that include increasing points of service access and extending sales to mail-order business operators. In the non-delivery businesses, we will expand the revenue base through efforts to create and develop a business model for generating a high level of added value by leveraging the Group's business resources. On the cost front, we will push forward with our efforts geared toward keeping costs in line with operating

volumes, and improving productivity.
